

# Maestro Wireless® | remote lighting control

**Never enter a dark home again.™**

## **Maestro Wireless dimmers and wireless controllers**

- Reliable radio frequency (RF) signals travel through walls and floors with a typical range up to 100 feet
- Use the wireless controller in your car, carry it with you, or place it on a tabletop
- Wall mount the wireless controller anywhere an additional switch is needed
- Use a wireless controller to operate up to three dimmers
- Over a half-million unique addresses means your neighbor's wireless signal will not interfere with yours
- Control each dimmer with up to four wireless controllers
- Compatible with HomeLink®-equipped vehicles
- Use companion dimmers to dim from multiple locations
- Replace an existing switch with the Maestro Wireless dimmer in as little as 15 minutes to gain wireless control

Maestro Wireless dimmer and wireless controller.  
Dimmer shown with Claro® gloss wallplate.

# Maestro Wireless® | ordering information

Maestro Wireless dimmers install just like standard switches, and feature push-in and screw terminals for easy installation. The versatility of the wireless controller allows you to mount it just about anywhere with the included hardware.

## Coordinating Products

Maestro Wireless dimmers coordinate with Maestro dimmers, switches, fan controls, and timers.

To complete the look add coordinating Claro® accessories

(GFCI receptacles, receptacles, phone jacks, cable jacks, decorator inserts)
